

DESCRIPTION

The following Agent Procedure utilizes Power Shell to gather a csv list of local user admins on the agent.

You can view the results in the Get File page of the Agent Procedure module.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file
2. Upload the Power Shell file to the Shared Files directory of the Managed Files folder:
<https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358>
3. Import the XML into the agent procedure module: <https://helpdesk.kaseya.com/hc/en-gb/articles/229012068>
4. Execute the procedure on a target machine
5. Navigate to Agent Procedure > File Transfer > Get File. Click the agent you ran the procedure on and download the **LocalAdmin-Information.csv** file.
