

DESCRIPTION

This agent procedure uses PowerShell script that removes Windows desktop wallpaper and set the desktop background color black for all users. The procedure creates a link in the all users' startup menu that starts the script every time a user logs on.

To change the desktop background for already logged in users, the procedure also creates scheduled tasks that will run once for each of the logged in users.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file.
2. Upload the Power Shell files to the Shared Files directory of the Managed Files folder:
<https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358>.
3. Import the XML into the agent procedure module: <https://helpdesk.kaseya.com/hc/en-gb/articles/229012068>.
4. Execute the procedure on a target machine.
