

DESCRIPTION

The Agent Procedure performs unattended Qualys Cloud Agent installation. The procedure requests for the Customer Id, Activation Id and the Platform URL for Qualys Cloud Agent (see [Install Guide](#) for the further details).

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file.
2. Upload the exe file to the Managed Files folder: <https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358>.
3. Import the XML into the agent procedure module: <https://helpdesk.kaseya.com/hc/en-gb/articles/229012068>.
4. Execute the required procedure on a target machine.
