

DESCRIPTION

These Agent Procedures are created to install the latest Slack version on the Windows computer and uninstall Slack. Slack will still require a sign in to open completely.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file.
3. Import the XML into the agent procedure module: <https://helpdesk.kaseya.com/hc/en-gb/articles/229012068>.
4. Execute the required procedure on a target machine.
