

## DESCRIPTION

This Agent procedure allows set Internet Explorer or Google Chrome as default system web browser for all existing/new users on the target computer.

To achieve that 3<sup>rd</sup> party tool called SetDefaultBrowser.exe is used. Agent procedure executes it with a corresponding parameter to set IE or Google Chrome as default browser for current user, but also agent procedure creates shortcut to the tool in the system common startup folder to set default browser for ALL users.

Also, folder contains agent procedure which allows to remove "SetDefaultBrowser.exe" file from the hard drive on the target computer and also delete all shortcuts from common startup folder.

## INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file
2. Upload SetDefaultBrowse.exe to the Shared Files/ directory of the Managed Files folder:  
<https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358>
