

DESCRIPTION

This Agent procedure performs unattended MS Office setup.

The procedure creates configuration file according to the settings provided beforehand for the *Office Deployment Tool* and leverages it to download and install MS Office. Detailed Installation logs are stored in the system %TEMP% folder.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file.
2. If necessary, modify the Configuration.xml file according to the [guide](#).
3. Upload the ps1 and the Configuration.xml files to the Shared Files directory of the Managed Files folder: <https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358>.
4. Import the Agent Procedure XML into the agent procedure module: <https://helpdesk.kaseya.com/hc/en-gb/articles/229012068>.
5. Execute the procedure on a target machine.
