DESCRIPTION

These Agent Procedures allow to automatically download and install (or uninstall) latest version of Dropbox Enterprise edition.

Before installation/uninstallation procedures make required checks to confirm Dropbox software is present on the target computer.

Also, procedures have informative logging via Agent Procedure Log.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file

2. Import the XML into the agent procedure module: https://helpdesk.kaseya.com/hc/en-gb/articles/229012068

3. Execute corresponding procedure on a target machine
