DESCRIPTION

This Agent procedure allows to download and silently install Unifi Controller software (version 6.2.25) on the target system.

Before installation Agent procedure checks if Java is already installed on the system (downloads and installs if needed) and if there is currently logged user (this is also required).

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file

2. Upload install-UnifiController.ps1 the **Shared Files/** directory of the Managed Files folder: https://helpdesk.kaseya.com/hc/en-gb/articles/360017878358
