## DESCRIPTION

This agent procedure uses PowerShell script that sets Adobe Acrobat Reader DC as default application for PDF files for all users. The procedure also creates a link in the all users' startup menu that starts the script every time a user logs on.

INSTALL INSTRUCTIONS

1. Extract the files from the attached zip file.

2. Upload the Power Shell files to the Shared Files directory of the Managed Files folder: https://helpdesk.kaseya.com/hc/en-gb/articles/36017878358.

3. Import the XML into the agent procedure module: https://helpdesk.kaseya.com/hc/en-gb/articles/229012068.

4. Execute the procedure on a target machine.
